

LIRA Series

A true harmony of art and engineering

Find out more

- **Crystalline high frequencies**
An all-new tweeter featuring a 28mm aluminum-magnesium dome, phase corrector and precision waveguide.

- **Uncompromising midrange**
Unique midrange driver with a neodymium UHVC motor and full time- and phase-alignment.

- **Unique form factor**
A dynamic, rearward-sloping cabinet with non-parallel side panels.

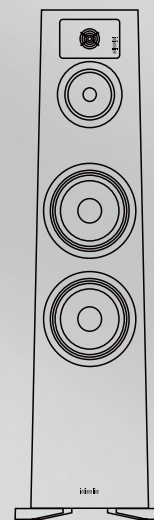

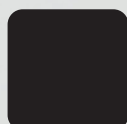

- **„Symbiotic Drive” speaker design philosophy**
Enjoy music reproduced with perfect harmony and ultimate transparency.

- **Powerful low frequencies**
High-excursion drivers and a front/down-firing bass-reflex port (model-dependent).

- **Robust build**
The cabinet finished with multiple layers of durable matte lacquer, features a 21mm-thick front baffle and internal bracing.

- **Magnetically attached grille**

LIRA 3

LIRA 6

		LIRA 3	LIRA 6
system		2-way	3-way
suggested amplifier	W	30-160	30-200
impedance	Ohm	4-8	4-8
frequency response	Hz	40-30000	35-30000
sensitivity (2.83 V / 1 m)	dB	88	90
high-frequency transducer	mm	28	28
midrange transducer	mm	-	120
low-midrange transducer	mm	175	-
low-frequency transducer	mm	-	2x175
crossover frequency	Hz	2300	600 / 3000
dimensions (H × W × D)	mm	375×205×300	932×220×363
weight (1 piece)	kg	8.5	19
price (22% VAT incl.)	EUR	1059 / pair	2349 / pair
